Launching Mosio from Inside a Presentation

4. Paste the link URL into your presentation.
 - a. Type some text (“Launch Q&A” for example) into the slide.
 - b. Highlight the text. In PowerPoint’s menu, choose Insert > Hyperlink.
 - c. Paste the link URL into the “Link to” field and click OK.

- d. It'll look like this in your presentation (if you type Live Q&A in yours)

[Launch Q&A](#)

Launching Mosio from Inside a Presentation

5. When you're ready for the Q&A, click the highlighted text link.
Shown as "Launch Q&A" in the example below.
Note: You must be connected to the internet.

PowerPoint

This will launch your Mosio screen in a web browser.

What if I want to embed Mosio in my presentation?

We don't recommend it for one simple reason:

Why try to replace the functions and flexibilities of a web browser through plugins and add-ons when a browser does the job perfectly?

If your event requires everything to be inside of your presentation software...

Find a PowerPoint add-in that enables you to embed a web page. You can find a free version of LiveWeb at CNET, it is PC-only. <http://bit.ly/LiVEweb>

Here are instructions on how to activate a web page inside of PowerPoint via LiveWeb (you'll need the Mosio URL to your display page as shown on page 2.)

How to: <http://bit.ly/2ozUJjG>

We hope that helps!
